

Type: Wall  
 Light source: **A07A20W** LED MODULE 12W, 2700K, CRI 90, 922 lm  
**A07A20** LED MODULE 12W, 3000K, CRI 90, 957 lm  
 dimmer on board

Product use: Indoor  
 Materials: Aluminium structure, glass lens  
 Colors: Matt black

Description: The Koinè family of lamps designed by Mandalaki Studio for Luceplan has grown. The new wall version with plug attachment has a structure composed of a slender stem (8 mm), anchored to the wall by means of a specific support for the reflector (Ø 20 cm) with its characteristic conical form. The light source, equipped with a lens in mineral glass, provides a wide cone of light with clearly defined contours. The on-off and dimming function is based on touch control using the stem.

Insulation class and mark:   

Rating: 220-240 V ~ 50/60 Hz
