PLAN**

Type: suspension EEL: A

Lamps*:
 e04100 30W 12V HAGS GU5.3 or LED SPOT 12V GU5.3
 e04105 50W HAGS GU10 or LED SPOT GU 10
 e04110 2X max 20W HAGS GU5,3 or equivalent LED SPOT GU 5.3
 e04135 45W 12V HMGS G53 or LED SPOT 12v G53

Product use: indoor

Materials: aluminium extrusion cylindrical body

Colors: white, polished, anthracite, metalized grey

Description: Aluminium suspensions in two diameters and different lengths. The particular design of the body is achieved through hydroforming. The power cable enters the side of the cylinder, providing two-way emission without casting a shadow on the ceiling. The polished aluminium casing holds the light source in a recessed position, preventing glare and improving visual comfort.

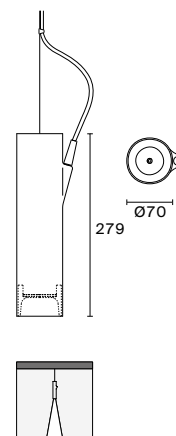

Insulation class:    IP20
