Description: Ultra-light, ultra-jointed and ultra-technological, the new lamp by Sebastian Bergne is part of a new generation of Task Lights. The two-way pantograph system allows for the widest range and variation of movement.
The swiveling head, also in technopolymer, equipped with a practical, intuitive and ergonomic T grip, contains an LED lighting module of the latest generation, with low energy consumption. The heat sink which has been made using a special thermally conductive plastic instead of aluminium, molded with a design suggestive of a woven fabric pattern. The base houses an intelligent box directly connected to the cable, containing the switch and dimmer, with a second version including a presence sensor.
