PLAN

Type:	Suspension	
Light Source:	LED 35W ⁽¹⁾ 3000K 1728 lm (delivered) push dimmer/DALI	EEL: A
Product use:	Indoor	
Materials:	molded polyurethane foam	
Colors:	white, black	

Description: Technological and futuristic, Soleil Noir by Odile Decq is a suspension and ceiling lamp with an organic form in molded polyurethane foam, whose LED light source is hidden inside a disk that generates homogeneous diffused, indirect lighting. Supported by a single asymmetrical cable, it keeps its balance thanks to the thicknesses of the body, functioning as a slim, aerial lighting element that conveys brightness with discretion and elegance. It is equipped with an avantgarde optical system to guarantee uniform light flow on the diffuser.

Insulation class:
