Liiu

^{EN} Liiu represents the perfect combination between the spectacular impact of its multiple configurations and their lightness, between functionality and an elegant, minimalist image, between the dynamism of its forms and their stability. It is an innovative system of suspension lamps that maintains an overall ethereal and poetic image. It consists of electrified metal cables fastened to the ceiling and held in constant tension by counterweights, with the bodies of the lamps positioned on the cables by means of two very light arms. An advanced configurator, designed to fully leverage the product's potential, will give designers the opportunity to explore and create customized configurations. In every translation, Liiu maintains its sculptural nature and the ability to always create a unique, new and dreamy atmosphere.

^{IT} Liiu è la rappresentazione del perfetto connubio tra la spettacolarità delle sue molteplici configurazioni e la loro leggerezza, tra funzionalità ed estetica elegante e minimalista, tra il dinamismo delle sue forme e la loro stabilità. Un inedito sistema di lampade a sospensione che mantiene un'immagine complessiva eterea e poetica. È composto da cavi metallici elettrificati ancorati al soffitto, tenuti in una costante tensione grazie a dei contrappesi, e dai corpi lampada posizionati sulle funi grazie a due leggerissimi bracci. Un configuratore avanzato, studiato per sfruttare a pieno le potenzialità di questo prodotto, darà ai progettisti la possibilità di esplorare e realizzare configurazioni personalizzate. In ogni sua traduzione, Liiu mantiene una natura scultorea e la capacità di creare un'atmosfera sognante sempre unica e nuova.
